

## CONCEPT

### OLD MOTHER WITCH

Old Mother Witch is a film adapted from the popular children's book of the same name by Carol Carrick. It is a story about understanding, empathy, and the need to bridge the generation gap.

A young boy and his rambunctious friends have a running quarrel with a cranky old woman in their neighborhood. She is so mean that they begin calling her the "Old Mother Witch." During a dark and eerie Halloween night a "really" frightening event occurs. This teaches the young boy and his friends a dramatic lesson about appreciating and helping other people.
