

page 31, (32)

EM Finley

32.  $Y = mX$

$45 = m/8$

$m = \frac{45}{8} \rightarrow m = 2.5$

The constant of proportionality (m) is 2.5.

page 18, (36)

Month	Quantity produced	Total cost (\$)
January	10,000	4,000,000
February	8,000	3,000,000
March	12,000	4,900,000
April	9,000	3,600,000
May	6,000	2,100,000

Production of Shoes

See Fig 1.6 for an alternative method.
