

JP MORGAN CHASE & CO.

Summer T.A.P. Analyst:

By: Nicholas Hynson

JP MORGAN CHASE & Co.

- After a merger with Chase bank JP Morgan Chase & Co. as it is known today, was founded on December 1, 2000
- Largest Bank in the United States, Sixth largest in the World
- Deals in:
 - Credit cards
 - Mortgages
 - Corporate & Consumer Banking
 - Retail Banking
 - Wealth Management
 - Trading & Investments
 - Etc.

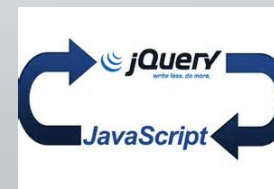

T.A.P Analyst Back ground

- Picked to be a member of a larger Management team
 - Paired with a team of interns
 - Intern teams worked along side management teams and other intern teams
- Assigned to EMBO team (Sith Lords) Management team
 - Intern team House Stark
 - In charge of creating a web based application for reference data maintenance

Responsibilities

- Creating a user friendly and “good looking” web based application for reference data maintenance
- Structure
 - Front end
 - Style sheet
 - Verification
 - Backing bean
 - Back end
- Testing

Challenges

- Biggest challenge I had never previously done any web based development
- First time working in a five person team
- Not everyone on my team knew java
- Specifics of final product were changed on almost a daily basis
- Java Primefaces not easily manipulated
- No previous knowledge of banking, investing, or trading structure

Classes that helped Me

- COSC 117 Programming Fundamentals
 - Java core
- COSC 320 Computer Science 2
 - Data structures
 - Dr. Wang reminders of Code for Good

Learning Experience

- Abstraction is your best friend for changing requirements
- Writing maintainable code
- Basics of spring backing bean functionality
- Basic web development and database skills
- Function in a team environment
