What Helped Me Learn

Every programming class

- 386
- 250
- 350
- 490

Learned how to interact in a professional environment which I felt adequately prepared for by almost every class here toward COSC in one way or another.

Trip To Korea

Talked with student about STEM program during a couple class periods

Stayed on campus with a group of student in a program

Dr. Park showed me around

Anyone & everyone should do it if they can
